

Muhammad Shoaib Jamshaid

Software Engineer

✉ shoaibjamshaid4321@gmail.com 📞 0325-2554650 📍 Paf Base Korangi Creek, Karachi

SUMMARY

Motivated and detail-oriented Software Engineer with hands-on experience in CMS development and a growing focus on AI technologies. Currently developing skills in Prompt Engineering, AI-assisted development, and modern software development practices. Passionate about learning emerging technologies, solving problems efficiently, and building practical, user-focused digital solutions. A fast learner with a strong commitment to continuous professional growth and technical excellence.

PROFESSIONAL EXPERIENCE

CMS Developer, *DigiDesire*

Developed and maintained CMS-based websites using WordPress, ensuring smooth content management, responsive layouts, and reliable site performance. Customized themes and plugins according to project requirements and handled regular website maintenance, content updates, and troubleshooting. Collaborated with design teams to deliver user-friendly web experiences and performed frontend customizations using HTML, CSS, and basic JavaScript.

Key Accomplishments:

- Developed and managed websites using WordPress and other CMS platforms.
- Managed and published blogs, articles, and website content while maintaining consistent formatting.
- Optimized images, SEO tags, categories, and content structure to improve website visibility.
- Customized website themes, layouts, and plugins according to project requirements.
- Performed website maintenance, content updates, troubleshooting, and bug fixing.
- Implemented frontend customizations using HTML, CSS, and basic JavaScript.
- Assisted in integrating third-party services and optimizing website performance.

Flutter Developer, *Eve Bytes - Remote*

Developed and maintained cross-platform mobile applications using Flutter and Dart. Collaborated with backend teams to integrate REST APIs and deliver smooth, user-friendly experiences.

Key Accomplishments:

- Developed and maintained responsive UI screens for a food delivery application using Flutter and Dart.
- Integrated REST APIs and efficiently handled JSON data rendering within the application.
- Implemented Provider for effective state management and application performance.
- Conducted testing and debugging across Android and iOS platforms to identify and resolve UI and functional issues.

Mobile App Developer Intern, *Exela Solution - Remote*

Key Accomplishments:

- Built small-scale Flutter applications for practice, testing, and skill development.
- Collaborated with senior developers to understand application architecture, development practices, and debugging techniques.
- Used Git for version control and contributed to internal project repositories.
- Gained practical experience in Flutter development, code organization, and troubleshooting.

Operations Associate, *Leopard Courier Services*

Key Accomplishments:

- Assigned delivery tasks to riders and coordinated timely dispatch of shipments.
- Managed operational emails related to rider assignments, shipment updates, and delivery coordination.
- Handled short-received parcels and coordinated with relevant departments for resolution.
- Documented and escalated cases involving damaged, leaked, or compromised shipments through official communication channels.
- Monitored key logistics operations to maintain a smooth, organized, and efficient courier workflow.

PROJECTS

Restaurant Ordering App, *Flutter | Dart | Food Ordering & Management*

- Developed a food ordering application with menu categories, cart, and order management.
- Implemented responsive UI and dynamic food item management.
- Added order status and customer interaction features.

SKILLS

- Prompt Engineering — Currently Learning
 - CMS Development
 - Flutter
 - Database Management
 - Website Maintenance & Troubleshooting
 - Problem Solving
- AI Engineering — Currently Learning
 - Programming Languages: HTML, CSS, JavaScript, PHP, Dart
 - Website Development
 - AI Tools & Automation
 - Git & Version Control

EDUCATION

Diploma in Software Engineering, *Aptech Learning Pakistan*

Completed a 3-year Diploma in Software Engineering from Aptech Learning and received the associated qualification certificates. Gained practical knowledge and hands-on experience in software development, programming, web technologies, databases, and application development.

FSc (Pre-Engineering), *fazaia intermediate college*

Completed FSc (Pre-Engineering) with a focus on Mathematics, Physics, and Chemistry.

Matriculation (Computer Science), *fazaia intermediate college*

Completed Matriculation with Computer Science as a major subject.
